## About the workshop

The workshop explores the relationship of the body thinking, the body processing, the body making, and the body performing. Does curiosity and examination of our own process produce knowledge? Using simple exercises, hands on work and improvisational scores we will approach our bodies as places of inquiry where we can examine our movement patterns and interests and open ourselves to the possibility of change. This physical research will be inspired and influenced by several somatic techniques.

Workshop Fee for the 4 days: 160 Euro  
Registration per email + CV to Emilie Guerin: [eguerin@sashawaltz.de](mailto:eguerin@sashawaltz.de)
